rfh@gmail.com

## **EDUCATION**

### **Johns Hopkins University, Baltimore, MD**

Expected May 2017

Bachelor of Arts in Public Health Studies, Minor in Spanish Literature

- Dean's List, National Society of Collegiate Scholars member since 2010

## **PROFESSIONAL EXPERIENCE**

### **Public Policy Research Firm (PPRF), LLC, Baltimore, MD**

June 2015-present

*Research Intern*

- Responsibilities included: managing and contributing to project design; producing client presentations; coordinating team members' tasks; maintaining schedule of deliverables; and writing monthly progress reports
- Received formal focus group facilitator training and designed 5 sets of stakeholder interview and focus group guides to be administered to hospital executives, staff and patients during 10 hospital site visits
- Developed substantive knowledge of Medicare fee-for-service and bundled payments, Medicare Part C and D performance measures; plan monitoring requirements and efforts; and enrollment and disenrollment transaction processes
- Coordinated and assisted with writing 6 client proposals

### **National Institutes of Health, Bethesda, MD**

June-Aug. 2016

*Research Investigative Intern*

- Designed and conducted Knowledge, Attitudes and Behaviors study of 100 TB-positive Iraqis in 2 cities
- Coordinated with aid clinics to administer questionnaire; analyzed data to pursue publication; and submitted proposal for IRB approval

## **SELECTED PROJECT EXPERIENCE**

*Development of Medicare Part C and Part D Monitoring Methods*

2016-present

### **Centers for Medicare & Medicaid Services, U.S. Department of Health and Human Services, Baltimore, MD**

Developed a sustainable monitoring method and measures of Part C and Part D sponsors' administrative function. Mr. R. F. Health led a literature review effort to aid in the Task B Gap Analysis and collaborated with a team in review of CMS monitoring requirement and efforts.

*Knowledge, Attitudes, and Behavior (KAB) Study of TB-positive Patients in Iraq*

2014

### **National Institutes of Health, Bethesda, MD**

The objective of this study was to assess stigma associated with TB in Iraq. With a collaborator, Mr. R. F. Health wrote, translated, and administered questionnaires to patients at internationally recognized TB clinics in two cities. This effort aided the collection of data regarding TB-positive patients.

## **PROFICIENCIES**
